EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Kroll on July 21,2005.

The application has been amended as follows:

Claim 1 line 12, delete "." and insert --;--.

Claim 4 line 2 after "with" delete "the" and insert --an--.

Claim 4 line 3 delete "the" and insert --a--.

Claim 6 line 3 delete "shit" and insert --shift--.

Claim 7 line 1 after "wherein" delete "the" and insert --an--.

Claim 10 line 1 after "wherein" delete "the" and insert --an--.

Claim 11 lines 1-2, after "wherein the" delete "target point" and insert --area--.

Claim 12 lines 1-2, after "wherein the" delete "target point" and insert --area--.

The following is an examiner's statement of reasons for allowance: The specific limitations of "a rocker assembly rotatably disposed between and secured to said sidewalls of said upper shift assembly having means for selectively and precisely being

rotated along the y-axis and temporarily locked into that position; and at least one lateral oscillation assembly comprising: a planar lateral oscillation table; means for retaining a work piece above said lateral oscillation table; and means for selectively and precisely rotating said lateral oscillation table along the x-axis and temporarily securing it into that position" are not anticipated or made obvious over the prior art of record in the examiner's opinion. For example 5,722,647 to Rattaro et al discloses a drill press including locking screws that allow for x and y movement of the support members (4,12) and cup members (14) which hold the work piece (lens) and allow for pivotal movement (fig 6). Rattario does not however disclose a rocker assembly and at least one lateral oscillation assembly as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jamila O. Williams whose telephone number is 571-272-4431. The examiner can normally be reached on Mon-Fri 6:30am-3:00pm.
